

## **IN THE SPECIFICATION**

Please amend the specification as follows:

Please replace the paragraph beginning at page 15, line 16, with the following rewritten paragraph as follows:

-- In FIG. 4, reference numeral 301 indicates an address of source (control terminal), reference numeral 302 an address of destination (remote controlled terminal), reference numeral 303 a type code of message (data), reference numeral ~~304~~314 a key code representing the kind of input key, and reference numeral ~~305~~315 a key flag indicating whether a key has been pressed or released. --
